Incentive Offer	Offer Valid Through	Utility Signature	Date
-----------------	---------------------	-------------------	------

By signing below, the customer accepts this rebate offer and agrees to the program Terms and Conditions available from the Utility. Any change in project scope or cost may result in a change in the incentive. Pursuant to a Commission order, the customer also agrees that the utility alone may capture all kW and kWh savings and any ISO-NE capacity payments resulting from this energy efficiency project. This agreement is contingent upon continued approval and authorization by the Commission to recover said amounts from the System Benefits Charge. The incentive, in conjunction with all other sources of funding, cannot exceed the total project cost. Upon successful completion of the project, payment will be made as indicated above.
