GET CASH BACK FROM YOUR PARTICIPATING UTILITY!

With a new ENERGY STAR refrigerator, you can start saving beginning with this rebate. Some restrictions may apply. See rebate form for additional details or ask your local participating retailer.

DO YOU MEET THESE REBATE REQUIREMENTS?

- Refrigerator must be ENERGY STAR certified
- Must be a residential electric customer of a participating New Hampshire Utility
- Limit of 1 refrigerator rebate per residential account
- Cannot be combined with any other utility offering
- Purchase must be made between January 1, 2016 and December 31, 2016. *Rebate is a limited time offer while funds are available and may be subject to change at any time.*
- Rebate must be postmarked or submitted online no later than **January 31, 2017**

REFRIGERATOR BEST PRACTICES

• Set the appropriate temperature

Keep your refrigerator at 35 to 38 degrees Fahrenheit.

• Place your fridge in a cool place

Position your refrigerator away from a heat source such as an oven, a dishwasher, or direct sunlight from a window.

• Allow air circulation behind the fridge

Leave a few inches between the wall and the refrigerator, and keep the condenser coils clean if you have an older model. Read the user's manual to learn how to safely clean coils. Coil cleaning brushes can be purchased at most hardware stores.

• Check the door seals

Make sure the refrigerator seals around the door are airtight. If not, replace them.

• Keep the door closed

Minimize the amount of time the refrigerator door is open.

**For more ways to save, visit
www.NHSaves.com**

Congratulations on your decision to buy an ENERGY STAR Certified Refrigerator!

The ENERGY STAR certified refrigerator must be installed in a participating utility's service area. The utilities reserve the right to conduct field inspections to verify installations. Limitation of liability: Your participating utility does not warrant the performance of installed equipment expressly or implicitly. For more information, call 1-877-366-3749.
