GET CASH BACK FROM YOUR PARTICIPATING UTILITY!

With a new ENERGY STAR certified washing machine, you can start saving even before you begin washing. Some restrictions may apply. See rebate form for additional details or ask your local participating retailer.

DO YOU MEET THESE REBATE REQUIREMENTS?

- Clothes Washer must be ENERGY STAR certified
- Must be a residential electric customer of a participating New Hampshire Utility
- Limit of 1 clothes washer rebate per residential account
- Cannot be combined with any other utility offering
- Purchase must be made between January 1, 2016 and December 31, 2016.
Rebate is a limited time offer while funds are available and may be subject to change at any time.
- Rebate must be postmarked or submitted online no later than **January 31, 2017**

CLOTHES WASHER BEST PRACTICES

• Always use HE (High Efficiency) detergent

Using regular detergent creates too much suds, which will affect the machine's washing and rinsing performance.

• Fill it up

Clothes washers use about the same amount of energy regardless of the size of the load, so run full loads whenever possible.

• Wash in cold water

Water heating consumes about 90% of the energy it takes to operate a clothes washer. Switching your temperature setting from hot to warm can cut energy use in half. Using the cold cycle reduces energy use even more.

• Avoid the sanitary cycle

This super hot cycle, available on some models, increases energy use significantly. Only use it when absolutely necessary.

• Activate the high spin speed option

If your clothes washer has spin options, choose a high spin speed or the extended spin option to reduce the amount of remaining moisture in your clothes after washing. This decreases the amount of time it takes to dry your clothes.

**For more ways to save, visit
www.NHSaves.com**

Congratulations on your decision to buy an ENERGY STAR Certified Clothes Washer!

The ENERGY STAR certified clothes washer must be installed in a participating utility's service area. The utilities reserve the right to conduct field inspections to verify installations. Limitation of liability: Your participating utility does not warrant the performance of installed equipment expressly or implicitly. For more information, call 1-877-366-3749.
