Liberty Utilities®

Refrigerator/Freezer Recycling

**Got a refrigerator or freezer you don't need?
We'll pay you for it.**

That old refrigerator or freezer in your basement or garage could be costing you up to **\$150** a year to run. Liberty Utilities will pay you **\$30** when you recycle your old second refrigerator or freezer with NHSaves.

Refrigerators and freezers must be:

- In working condition
- Owned by the resident
- A minimum of 10 cubic feet, using inside measurements

The process is simple: ARCA Recycling will pick up your appliance/s, and you'll receive a check by mail 3-6 weeks later. All you have to do is schedule your pickup.

To schedule your pickup, call **(877) 889-4763**. Ask about free room AC recycling, too.
