

Keep Your Family Safe from Carbon Monoxide

Carbon Monoxide is a colorless, odorless substance that is created by the incomplete combustion of any fuel including propane, natural gas, oil, kerosene and even wood.

Carbon Monoxide can be deadly. Symptoms include headaches, nausea, dizziness, coughing, ringing in the ears, and spots before the eyes.

If you suspect carbon monoxide exposure, get to fresh air and call 911 right away.

Protect yourself by installing carbon monoxide detectors in your home and test them monthly.
