

# Liberty Utilities®

## Energy Service Charge Will Increase February 1st.

**Beginning February 1st the Energy Service charge will increase. This new rate will be fixed for residential customers until July 31, 2018.**

The Energy Service Charge represents the cost we pay for the electricity we purchase on the energy market. We don't generate our own electricity, so we need to purchase what we deliver to customers. The cost of the electricity is passed directly to customers without a mark up in price.

A residential customer using 650 kWh per month will see an increase in their total monthly bill of \$1.87 or approximately 1.57%. To obtain rates for other rate classes, please visit our website at [www.libertyutilities.com](http://www.libertyutilities.com).

Please be aware that you have the choice to purchase your electricity from a third party marketer. If you choose to do so, Liberty will still deliver your electricity, respond to outages and work on storm restoration.

For more information visit [www.libertyutilities.com](http://www.libertyutilities.com), call 1-800-375-7413, or contact the NH Public Utilities Commission Office of the Consumer Advocate at 1-603-271-1172.
